

Invitation

Sommaact: a successful European project

The Press Conference will take place on 3rd July 2012, at 10.30 a.m., in Alesamonti, Via Oltrona 28, Barasso (VA) ITALY.

On Tuesday, July 3, 2012, at 10:30 am at ALESAMONTI, the press conference will be held about the project SOMMACT (Self Optimising Measuring Machine Tools) and its applications in industry.

After the press conference, there will be the presentation of the prototype machine. The research project SOMMACT, developed under the 7th EU Framework Programme, was aimed at studying a new type of machine tool capable of evaluating errors and correct them.

The research project was financed by the European Commission for an amount of about 4 million and was coordinated by Alesamonti, a company specializing in the design and construction of boring and milling machines. The project has involved eleven other excellent partners from seven different European countries, including the Italian partners in the project, the prestigious Italian research center, INRIM (National Institute of Metrological Research), and the association, CONFAPI of Varese.
